

The Art Project

Polar bear swimming in rubbish

The art project consists of 384 tiles, each divided into 100 squares, making 38,400 pixels.

During the afternoon of the Carnival the visitors are invited to colour each pixel, which are numbered, with one of 12 colours.

Over the afternoon the tiles are added to the board until the picture is revealed.

Urban Saints Carnival Procession Float

Taking inspiration from the Tearfund “**Join our Rubbish campaign**” (www.tearfund.org.uk/action) the float highlighted areas where rubbish is causing concern, as shown in the following photos.

It was awarded **1st Prize** in the “Best interpretation of the theme” category
