

# The Art Project

The art project consists of a board divided into 384 squares.

During the afternoon of the Carnival the visitors are invited to colour tiles, which can be one of 12 colours or divided into areas with more than one colour per tile.

When the paint is dry the tile is added to the board so that over the afternoon the picture is gradually revealed.

# St John's Church Flower Festival

The flower festival is held in conjunction with the carnival.

This is the Urban Saints contribution.
