

Urban Saints Float

Each year our Urban Saints join in the Carnival Procession dressed depicting the theme for the year. This year the theme was The Wild West. They won 1st Place for “Best interpretation of the theme”.

The Art Project

The art project consists of a board divided into 384 squares.

During the afternoon of the Carnival the visitors are invited to colour tiles, which can be one colour or sub-divided into areas with more than one colour per tile.

When the paint is dry the tile is added to the board so that over the afternoon the picture is gradually revealed.
